**Corrections**  
**Adult Corrections Violator**  
CFC Monthly Monitoring Report

Descriptions:

- **Actual:** Average Daily Population (ADP). \*Note: The methodology to calculate the caseload population changed with the June 2021 forecast. Historical months have been updated to reflect the current methodology. Forecasts prior to June 2021 reflect the prior methodology and therefore will not be directly comparable to forecasts under the current methodology.
- **Budget Forecast:** Caseload forecast adopted by the Caseload Forecast Council to serve as the basis for the biennial or supplemental budget. The actual budget may incorporate adjustments to this forecast to reflect legislation and policy decisions by the legislature subsequent to the development of the forecast.
- **Current Forecast:** Most recent forecast adopted by the Caseload Forecast Council; may be the same as the Budget Forecast.

**Disclaimer of Liability:**

Although the Washington State Caseload Forecast Council does all that it can to assure the accuracy of its forecasts and the data on which its forecasts are based, no warranty expressed or implied is made regarding accuracy, adequacy, completeness, legality, reliability, or usefulness of any information contained herein. This disclaimer applies to both isolated and aggregate uses of the information. If you find any errors or omissions, we encourage you to report them to the Caseload Forecast Council.
